About Me

Front-end developer with experience in building responsive web applications and user-friendly interfaces. Skilled in React.js, React Native, JavaScript, RESTful APIs, TypeScript, and modern front-end tools.

Expreiences

Taktsoft | Bonn, Web Developer (January 2025 – April 2025)

- Collaborated on various web development projects using React.js and React Native. Integrated RESTful APIs to deliver dynamic functionality and seamless user experiences.
- Enhanced application performance and usability through modern front-end practices.

Le Wagon | Berlin, Fullstack Developer (January 2023 – April 2023)

- Developed and implemented a booking platform.
- Led front-end development to enhance user experience.
- Technologies: JavaScript, HTML, CSS, Ruby on Rails, MySQL.

Freelancer | Tehran, Iran Podcaster (March 2018 – October 2022)

- Produced engaging podcasts exploring themes of food history and war history.
- Collaborated with fellow podcasters to share insights and enhance content quality.

Karzan | Tehran, Iran Web Developer (March 2014 – May 2017)

- Designed a retail and wholesale management system for food industry brokers and companies.
- Technologies: JavaScript, HTML, CSS, Ruby on Rails.

Fars Chemical Co. | Tehran, Iran Product Owner (July 2010 – December 2013)

- Managed sales and warehouse-related initiatives, increasing efficiency by ~6%.
- Utilized agile methodologies for feature prioritization and delivery.

Project

Student Monitoring App (React.js & React Native Web App)

- Developed a student tracking application to monitor grades, assignments, and upcoming tests.
- Technologies: React.js, React Native, Tailwind CSS, HTML, CSS, Express.js.
- Designed intuitive UI for parents and students to streamline academic progress tracking.
